Computing undergraduate with a perfect academic record (GPA: 4.0) and a strong passion for Artificial Intelligence and Machine Learning. Actively engaged in IEEE, Women in Engineering (WIE), and Computer Society initiatives, with experience applying technical knowledge to real-world projects. Skilled in problem-solving, teamwork, and software development, with a keen interest in gaining hands-on experience in AI/ML technologies. Seeking an internship opportunity to contribute to innovative AI projects while further developing practical expertise in emerging technologies.

TECHNICAL SKILLS

- Programming: C, Java, Python (Intermediate)
- Web Development: HTML, CSS, JavaScript, React, Next.js (Basic), Node.js (Basic), Tailwind CSS
- Database Management: MySQL, MongoDB (Basic), PostgreSQL, Supabase
- Deployment & Hosting: Vercel, Render
- Tools & Technologies: Git, GitHub, VS Code, Postman, Ollama
- Concepts: Object-Oriented Programming (OOP), MVC Architecture, SDLC, Clean Architecture
- Data & AI: Basic Machine Learning (Numpy, Pandas, Scikit Learn), Data Analysis, AWS Partyrock

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Communication Skills
- Time Management
- Leadership

EDUCATION | CERTIFICATIONS

Bachelor Computing | Lanka Nippon BizTech Institute (Maharagama, Sri Lanka)

2023 – Present

GPA: 4.0

Foundation Completed

Relevant Coursework: Software Development | Software Testing | Japanese Language | Web programming |

Sri Sumangala Girls School, O/L | Panadura, Sri Lanka

Completed - 2023 May

Certifications:

- Language
 - JLPT N5, N4, N3 – Japan Foundation
- Artificial Intelligence
 - Introduction to Generative AI - Google Cloud Skills Boost
 - Introduction to Large Language Models - Google Cloud Skills Boost
 - Introduction to Responsible AI - Google Cloud Skills Boost
 - Google AI Essentials V1 – Coursera
 - AWS AI Practitioner Challenge- Udacity
 - AWS AI & ML Scholars - 2026 Challenge Completion – Udacity
- Other Technical
 - Learning SQL Programming – LinkedIn Learning Community
 - Postman API Fundamentals Student Expert - Postman
 - Project Management Course - Simplilearn

- MongoDB Beginner – LinkedIn Learning Community

Languages: Sinhalese, English, Japanese

PROJECTS:

- RideLink – Car Pooling System
 - Built with MERN stack by applying Clean Architecture principles
 - This system address to share the rides with others to reduce carbon emissions across countries.
 - Deployed frontend on Vercel and backend on Render
- Portfolio Website (React, Tailwind CSS) - Ongoing
 - Designed and developed a responsive personal portfolio website
 - Showcased projects and technical skills
 - Implemented modern UI using Tailwind CSS
- Local Chatbot
 - Used Ollama Phi-3 model with Python Custom Tkinter
- University Management System (Java, MVC architecture, Swing)
 - This application created using Java and Swing framework for UI
 - Followed MVC architecture
 - Implemented role-based access control
- Meteorological Data Analysis App
 - Built with Python
 - Built a role-based system with Admin and User access levels
 - Admin can input and update meteorological data (temperature, rainfall, humidity)
 - Users can view historical weather data filtered by month and location
 - Stored and queried data using MySQL
 - Sourced data from the Meteorology Department, Colombo

PROFESSIONAL EXPERIENCE

JAPANESE CLUB | **Secretary**

May 2026-Present

- Assisted in planning and organizing traditional events, student activities
- Coordinated communication between club members and management
- Managed documentation and reporting for active club operations

IEEE, WOMAN IN ENGINEERING(WIE), COMPUTER SOCIETY | **Member**

2025 –Present

- Engaged in knowledge sharing related to software development and emerging technologies
- Collaborated with peers on academic and technical initiatives
- Built professional networking skills through involvement in global communities via online

IT CLUB-LNBTI | **Assistant Secretary**

OCT 2025- May 2026

- Support for organize technical events, research workshops, and student activities

- Coordinated communication between club members and management
- Managed documentation and reporting for club operations
- Developed teamwork and leadership skills through active participation
